VirtualDub 1.6.6 (ENG/RUS). V VirtualDub is a PC software for video capturing and processing. It allows you to use a wide variety of video formats for your movies. Today, VirtualDub is one of the most popular applications of this class. In addition, this application is a powerful and convenient video editor that can capture and combine several video segments, apply special effects (including sound effects) to them, as well as change the playback speed and

brightness of video.
