CNSearch Pro PC/Windows [Latest]

- Python-based - Search engine without any third-party components - Classic search format with results presentation - Works with WEB 1.0, WEB 2.0, PHP 5.4-compatible! - Quotes highlighting option - Accumulating statistics on user requests - Personal password storage (for registered users) CNSearch Pro Features: - Simple GUI with PHP-compatible control - Supports NOT, NOT LIKE, REGEXP, STARTS WITH, ENDS WITH search phrases - Full-text indexing - Search in RTF, DOC, HTML, PDF, XLS files - No need to install any database or server side applications - Installing and using CNSearch Pro is simple - Designed and tested for any hosting provider - Supports all standard web-hosting software - Easy to use, adjust settings and customize the interface - Multiple international languages - Read-only website archives with clickable bookmarks - Recommended for hosting providers - Fully PHP-compatible control interface - Can be installed at multiple sites - Access to "cgi-bin" directory - Very low system resource usage - Full Unicode support HTML Index is a non-intrusive extension to a web browser. It can be installed for all popular browsers: Safari, Opera, Mozilla, Firefox, Internet Explorer, Netscape Navigator etc. HTML Index enables you to make detailed, intelligent searches in your site content with no special actions required. Each HTML document is indexed into a separate file with a detailed search index for fast, intuitive searches. After indexing, all pages are processed - they are down-linked and indexed. HTML Index complements existing search engines and can replace them without having to break the compatibility between your web browser and all your web pages. Generation of the index is fully automated by just one click of the button. After indexing all available information is displayed in a tree view on the right side of your browser window. You can close the results with a simple button click. You can organize your search results by date, last modification, tag, page title etc. HTML Index provides more information on any web page including pages with frames or images. You can click through hyperlinks on pages. You can also search for specific pages or sub-pages. A flexible Web-based indexing solution. HTML Index Description: - Rapidly and reliably indexing all web pages - Indexing individual pages and sub 09e8f5149f
