Category:Windows-only software

In the debate over the crisis in Syria, a primary point of interest is whether the country should be transformed into a new Libya, complete with widespread rape, mass murder, and systemic human suffering. Despite its far-flung location and the curious absence of discrete civil war, the Syrian crisis has gone through a bizarre metamorphosis. The initial focus of many international observers was the

uprising in Syria in March 2011, which was characterized by the opposition as a mass popular revolt. By October 2011, however, the uprising had degenerated into a civil war between the Syrian state and the country's armed opposition. As early as 2011, observers noted that the Syrian
