## What's New In?

BOX4 is an intuitive and powerful video converter that will enable you to convert virtually any video format to MKV, MP4, MOV, TS, and FLV. It offers the fastest conversion speed and it supports multiple file formats. BOX4 has a modern interface that makes it easy to edit videos: add subtitles and an image, set video and audio settings, or change the video codec. BOX4: Convert videos Capture the latest videos with any camera, and later manage them all in a single package. Edit videos: preview, crop and trim your recordings, add professional subtitle and image effects, and add titles. Share and send videos: upload or download videos via FTP, YouTube, Gmail, Dropbox, Google Drive, Facebook, Vimeo and other services. Video encoder settings: you can choose the audio codec (AAC, MP3, copy from the original file), and the video bitrate. Why should I download BOX4? BOX4 is simple and easy to use, and it offers a modern look. However, there are several issues to be addressed before turning it into a perfect conversion tool. Lacks official support for more formats BOX4 offers a limited support for file formats. It supports just six container formats: MOV, MP4, TS, FLV, MKV and a rare AVI one. No recommendations when exporting the output BOX4 lets you export the results to the Videos directory of Windows. However, if you would like to backup or share videos, you will need to specify the location where you want the output to be stored. This could be a problem for people who wish to avoid Windows components in their conversion workflow. Requires manual adjustments You cannot access the audio and video settings of the video and audio tracks through the interface. Instead, you need to open the Profiles or Settings sections. Download BOX4 To begin using BOX4, visit the download page. After downloading the program, extract the files, and run it. BOX4 Video Encoder is freeware, its simple interface makes it easy to use: choose your files and click on Convert to get started. Wrap up: I usually never write about the first release of the year. I normally just wait for a few months for new titles to come out. I'm a bit different for this release. I'm here to tell you that this is the best first release of the year for sure. There is a huge value in this first release with the whole game and DLC included. This is a huge selling point for me to be honest. I want this on my shelf to show my friends that I started the year off
