

3D finite element model generation in PLAXIS 3D is based on . The user can also import Industry Base Class (IFC) data using . The Plasmotech company, a developer of software products for solving problems of thermal physics and continuum mechanics, announces the release of a new version of the program for generating finite element models in the 3D-PLAXIS modeling environment. The 3D-PLAXIS software package is one of the most functional models and includes over 70 standard models of various directions. The use of 3D-PLAXIS allows you to reduce the time for solving problems and increase the productivity of specialists by 30%.
