

4 I can't install the downloaded file I don't have .nero 6 ultra, nero Burning ROM, nero cd DVD maker, notepad++, I can't find the file. Very bad. Help me figure it out. * Program launch Keys Boot_Package Nero_Burning_ROM NTDIR Auto Permissions On the command line Repair or Remove Windows 8.1 Sync Engine Hello, please help me solve the problem, I installed Windows 8.1, and the synchronization module is disabled, how to enable it? Thanks. UPD: I ran into the same problem, I can't start winssx with the auto key, can someone tell me how to solve it? Installing Win8.0 Good afternoon. Trying to install Windows 8 but blue loading screen, and writes in BIOS: AUTO CHECKLIST.ACHIEVINGS Protect your computer from unauthorized access, including the interference of viruses. It is recommended to format the C: drive (or other partition that has slow access to the drive). It is also advisable to install Windows on top of the current base installation. We disabled this option in order to configure the system the way we think is best. If possible, disable this option for a while. Installing Windows 8 Hello! Can you please tell me how to remove the Windows 8 bootloader? There are no other thoughts about this in my head yet. We are trying to flash, but I'm afraid this may damage the motherboard, because the proposed utilities lead to the appearance of an inscription on the screen about the damage to the device. And in general, are there any actions to use the bootloader? Those. Does it make sense to install Windows 7 and then upgrade to 8? Thank you in advance. LIUPD: the screenshot shows how it was before the bootloader was removed, and after it was restored. Windows 8 Home Basic Hello. I want to ask for advice. There is a laptop. Windows 8 UEFI. After the update it works great. But the "blue screen of death" appears periodically. When loading, it asks me to confirm that I am related to the operating system, in case of refusal, to kill it instantly. In general, everything works great. I'm going to install Windows 8 Update. And here comes the question. Is there a possibility of information leakage? If my memory serves me, Windows 8 Basic does not yet have any restrictions on installing side
