
Pop Plus Root.zip

December 27, 2021 - this ensures that the device can be rooted right now. If you want to root Alcatel Pop 4 Plus, then you are on the right page. â™™! â™™! â™™! -----
Supremacy of Pure Feeling Now I want to try the rooted Recovery and upload my firmware file there. But I don't know how to do it. Is there a section for beginners? I was able to go into recovery and there was no firmware file, but there was an OTA (updates) file and I downloaded it. But I donâ€™t know how to throw it into TWRP. Does it have a way to do this? I found a way if anyone is interested:
