Tools To Reg. |Q: Make Text run from top-right to bottom-left I have this text: Which looks like so: But I want it to be like so: Which is the correct way to achieve this? A: Let's say you have the Text that you want to make it look like a image then following the image is the best way to make it look like a very long word which can be divided into few parts like this You have two options The first is using CSS to make the spans all have display:inline-block and float to the right text-align:right Fiddle example The second one is to give all spans a fixed width of 15px then make the div's contain the span's and arrange the div's in row like this Fiddle example And the JS code to make it look like a image Make sure to also add a style to the span like width:100% with a font-size:0 to make it fill the whole content like this Fiddle example And another thing if you want to make a word fixed then for example if you want it to look like you typed all the words in a single line, then you can use HTML You have four options

### **Requirements:**
