I have a newer computer. In any case, the video quality of Falcovis is too low to be usable on my normal-sized screen (1680x1050), so I would have to zoom in to use the app. I'm not sure if this was my fault. A: Radio Channels, Stations and Futures update is disabled. In case it is useful for someone: Radio stations update or working fine. Stations do not work, but can be played normal. Futures do not work, but I can enable it manually. Q: How to change the size of the input field using jQuery? I would like to make my input size dynamically. So I would like to change the size using jQuery or JavaScript. Could anyone help me please? This is how I am entering the input data: `$(document).on('focus', 'input', function() { if (this.value.length == 0) { this.value = this.placeholder; } });` Thanks! A: Use JQuery resize function to change the size dynamically. In your case, you want to change text size when empty string is entered in the textbox. I

What's New in the?
