Customer Reviews Score 5 out of 5 L Reviewed By Stargate 1/5/2018 5 stars You are always being reminded to clear the rain, at every level. I don't know who designed this game, but they need to get a clue. There is no method of slowing it down, and it is always on. I think they should have a menu option so you can turn it off because the more you play the worse it gets. I thought that this game was good. I finished it, but it needs more. There is no going back and you can't even use a map. You have to find it by yourself. The world is covered in water. It's not that the sun

can't shine. It's just that it gets obscured by the rain. The world is filled with water. There are green deserts, blue seas and white snow. But there is no place where it is completely dry. The water is filling up the entire world. But there is a small island. It is a place where water is not captured. No rain falls at all. It's the land of the rainbow. Colorful lands on both sides of the island. It's a very strange place. Rainbows are raining from the sky. Wow! This rainbow is so beautiful! This rainbow is really amazing! Good morning! Is it time for me to go home already? The sun is shining again. The rain is finally gone. You're going home. I have to go to the island. I'll see you again in the other world. I have to go! I'm going to the island. I'll see you again in the other world. My journey to the island is finished. Good morning! Oh, there are no fish in this lake. Oh, I should have swam down to the bottom of the lake to get a hold of fish. Okay, let's take a look at the map! I'm not going to be able to cross over to the other side of the lake. Oh, there's a rainbow over there, too. Let's jump on it. I can't jump over here. I'm just going to have to cross over by swimming. The path of the rainbow is longer than I thought. Wow, another rainbow! What color is this rainbow? This rainbow is really amazing! Let's take a look at the map. It's a lot easier to cross over if I'm riding a rainbow. This is just fantastic! I've reached the other side. I can finally cross over to the island! Wow, I've reached the shore of the island already! I'm really glad that I caught hold of this rainbow. I'm going to cross over to the opposite side of the lake. This lake is completely full of water. I'm not going to be able to cross over to the other side. I'm just going to have to swim.
