Krishna Reddy Indian History Pdf 11

11. a part of dr bashir reddy (1895-1985) history.

came up. I opened the camera app to the main screen and saw that I had just rebooted with no memory card attached in the memory. If you would like to continue please insert a memory card in the camera and re-boot the camera.

When the camera boots up again you should be able to access your shots which are stored in the internal memory of the camera. If your camera has not booted up already, please see the following

instructions on how to manually power off and power back on the camera and then re-boot so you can access your shots. 1)

POWER OFF THE CAMERA: 1- Open the manual menu (the buttons found on the top of the camera) 2- Press and hold both the Menu and Shutter buttons together for 5 seconds. 3- Make sure that the battery is fully depleted as the battery consumption can start after the camera is booted. 4- Select the Power Off option and press the OK button. 5- When the

white Power On symbol appears on the LCD display, release the Shutter button.

6- Wait at least 30 seconds for the camera to fully power down. 7- Release the Shutter button. 8- Press the Shutter button again to power back on the camera. 9- Press the Menu button to enter the Menu. 10- Press the OK button to confirm. In this scenario, the camera will not go back into "off" mode after the Power Off. Instead the camera will begin to power itself back on with the memory card already inserted. Once the camera powers on again the memory card should be displayed on the LCD display. If there is a memory card in the slot when the
