Gamer Nexus Dear Editor, I'd like to start by saying how much this game has changed my perception of Gamebryo. I had never looked at it as a good developer, considering the casual adventure titles they have produced before and after this title. Now the sheer quality of their previous titles and how hard the developers have worked to rectify the issues that were present in the previous title has reassured me that this is a great franchise of games. I'm not really much of a fan of JRPG's, but

when I heard that they were making an MMO from scratch I was very curious to see how they would pull it off. Thankfully they did an excellent job and the people that created it deserve a lot of credit. In the beginning of the game I was in awe, sure that I was about to play a MMORPG with one of the best graphics I had seen in a while. I was blown away and the game was addicting from the moment I started playing. As for the gameplay, the combat isn't anything to be scoffed at, especially since you can assign your skills to different actions. The combat is by far the most enjoyable part of the game and it makes you want to keep coming back to play for the next update. In all honesty, this game deserved much more credit when it first came out, as they did an amazing job, taking the time to change and fix the story, gameplay, and systems. It is refreshing to see a new MMO get a second chance

with the right people and the right systems in place, and here's to hoping the next one is just as good. I highly recommend this game to all gamers, and I can't wait to get back into the beta later this year. Sincerely, Luis Gamer Nexus Marty's Game Room

Over time I've developed a taste for action games. Some that I like and a few that I've grown to dislike. The exception to my actions is the role-playing games, I really don't like them. While I like the combat that happens within the main over world, I don't find it enough of a draw to go out and get my heart beat up for. That's why I was pleasantly surprised to find out that even though Elden Ring Cracked 2022 Latest Version is an online action RPG, it didn't feel like an online action RPG. It was an action RPG that I could actually be a part of
