The show's premise is pretty simple. Peggy Carter is the first female Secret Agent in the history of the US. She has to be resourceful. She has to be tough. And the first time she saves the world, it happens in part because she stops a bullet with her top and bottom teeth. Like, really. I had a similar experience when I watched the Pilot of the Marvel Cinematic Universe. Iron Man was a billionaire who was always getting in over his head. He had a ton of junk to take care of. He was resourceful. He was tough. And he did it all by himself. As the series progressed, I came to realize that Tony Stark was very relatable for men and women alike, across all demographics. He was geeky, he was enthusiastic, he loved people, and his motto was "With great power comes great responsibility." He was exactly what every superhero should embody. I think that the MCU characters have been a great example for us to follow, but we also need to look beyond that. You need look no further than Peter Parker to understand that a hero is more than just what they have or what they can do. You also need to look beyond the physical aspects of a hero. Any superhero worth their salt has a witty personality, reliable friends, and at least a modicum of humor. Heroes are active listeners and empathetic human beings. They are resourceful and, sometimes, they make mistakes. They try to make up for those mistakes by having relationships that are meaningful and make them better people. And who will Captain America look to for inspiration? For me, it's Steve Rogers. He may not be her best friend, but he's definitely the 648931e174

The College Board, the not-for-profit association that administers the SAT exam, will stop administering the test to college. Nifty: Oil and Auto to drive Nifty gain Mumbai: The NSE Nifty was trading in a tight range at 11,158.50 as of 1.15pm on Monday. The Index could not sustain at or around 11,160 levels, which is its closing value on Friday. Since the last trading session, the Nifty has managed to move up by 200 points against its previous close. The NSE Nifty also posted intraday gains for the third straight session. IndusInd Bank and L&T are reportedly on the block to HCL Tech. Other gainers in the market includes Hindalco, Sesa Sterlite, Wipro, TATA Steel, Coal India, Tata Motors and ONGC as they moved up after making gains in the preceding session. A proposal has been made to merge two Indian Banks—Nationalised Bank of India and Syndicate Bank—into one entity to save the government a huge Rs. 35,000 crore. However, four Indian Banks have opposed the move. The Union Budget is scheduled for February 1. The Indian markets will remain closed on Tuesday due to Holi. In the afternoon session, the markets are expected to witness a range bound trading till the end of the day. Analysts recommend investors to book gains in a range bound market. The Reserve Bank of India's (RBI) Monetary Policy, slated for the next week, will hold sway on the markets. Following the central bank's policy decision, the RBI is expected to add liquidity in the system. This will help in accelerating economic activity. According to a Reuters poll, the RBI is expected to keep policy rates on hold, although it could announce an improvement in liquidity. The poll is conducted every three months and this is the seventh time the RBI has held off raising its key repo rate.

The central bank has raised it by 0.25 per cent on nine previous occasions since December 2009. It is widely expected that the RBI will keep the repo rate unchanged at its next meeting on Thursday. Oil and auto stocks led sectoral gains in the Nifty. Indian Oil Corp had moved up by 11.65 per cent to Rs 369.50.

Hindustan Petroleum Corp had been

1-1 Effective Project Management: Traditional, Agile, Extreme, 7th Edition.. By effective, we mean making the right decisions and successfully implementing .1 of 11 Lance King/Getty Images Once again, the Tampa Bay Buccaneers will enter the 2019 NFL draft as the No. 3 overall pick and the odds-on favorite to draft Alabama's Tua Tagovailoa, per Draft Square. The QB, who underwent hip surgery this offseason, has been labeled as the best prospect in the draft since his Heisman campaign and has something to prove. A high-flying, athletic quarterback who has always gotten the ball out quickly, Tagovailoa always appears to be on the verge of breaking every NFL record in the books. He has the makings of a star on both sides of the ball and would be a perfect fit for the Bucs offense. With Fitzpatrick under contract, Tagovailoa could very well see the field sooner than expected, as he's a talented dual-threat and would keep the offense's guns loaded. Losing Winston to injury is a great opportunity for Tagovailoa to prove himself, as he'll get a shot to start and he'd be behind a young and inconsistent backup in Fitzpatrick. If he decides to take a year off, he'd have a second opportunity to do so, as he can return for his senior season in 2020. This is clearly a win-now team, so if Tagovailoa is still available when Tampa Bay picks, it has the potential to be one of the biggest steals in recent memory. Mike Evans, DL 2 of 11 William Mancebo/Associated Press As we all know, Bucs linebacker Kwon Alexander and defensive end Leonard Fournette will be options at No. 3 overall. The Bucs need to add a play-maker at the linebacker position, however, and Evans fits that bill. Evans is the best receiver from Alabama in recent memory, and he has the athletic ability to stretch the field. Adding a player with that type of ability to their receiving corps could be huge for quarterback Jameis Winston in the passing game, especially if the Bucs don't sign any wideouts in free agency. What's more, Evans could be an impact pass-rusher, as he has shown an ability to get to the quarterback. While Evans isn't a complete player right now, he would be
