Q: How to evaluate $\int_0^\infty \frac{x^2}{\sin x^2 + 2} dx$? $\int_0^\infty \frac{x^2}{\sin x^2 + 2} dx$ I tried to use contour integration but got stuck with nasty poles near $x = 0$. I also tried changing the variable to $t = \sin x^2$ which gives the integral $\int_0^\infty \frac{t}{t + \frac{1}{2}} = \frac{\pi}{2}$. But I can't seem to relate the two integrals. I'd like to know what other approaches can be used.

A: Consider $\int_0^\infty \frac{x^2}{\sin(x^2)+2} dx$

$$\begin{aligned} \int_0^\infty \frac{x^2}{\sin(x^2)+2} dx &= \lim_{\epsilon \rightarrow 0} \left(\int_0^{(2n+1)\pi} \frac{x^2}{\sin(x^2)+2} dx - \int_0^{(2n+1)\pi/2} \frac{x^2}{\sin(x^2)} dx \right) \end{aligned}$$

A Fate You Control

"The world of FF9K is as vast as its capacity. It's rare to be able to fully explore any bit of it. In addition, most areas in FF9K can be revisited. To find out all the things you haven't yet seen, you'll have to go there, so you'll have plenty to do! If you find yourself exhausted, try zipping through time to get your excitement back up again. By the way, there's something else you ought to know. If you die and lose all your data, no matter how many times you start up the game, that loss will always be on you."

But how can I activate or buy this game?The Houston Dynamo played their first exhibition match of the year on Saturday night, a 2-1 victory over NSC Minnesota Stars as the team prepares for the start of the MLS regular season. While the Dynamo seemed to be much quicker than the Stars, it was a performance that was lacking in cohesion and it wasn't until the final five minutes when the team passed the ball around and found some rhythm in an impressive win for the Dynamo. With the news that Hassoun Camara will miss the next 6-8 weeks with a lower back strain, the Dynamo will be looking for starters Corey Ashe and Kofi Sarkodie to step up their games and be sure-fire starters in the weeks to come. The forwards were the strongest part of the team on Saturday, with Camacho and Calvo both having good games and Will Bruin scoring the opening goal for the Dynamo. Here are the highlights from the Dynamo's 2-1 victory. Dynamo goal CARLOS CAMACHO The Dynamo's left back had a great game on the day and had several superb crosses into the box. His first was with the ball in the box and his cross was put in the back of the net. bff6bb2d33

■Story of the Lands Between (Tale of the World)

The Elden Ring that descended from the sky By combining the nine orbs brought down by the Elden Lord The powers of the nine Elden Lords of faith were fused, and their holy crown of power was born

On one day, the sacred golden belt of determination was stolen, and the lands between were dying as a result

The Elderlings and Elendil's realm next to the Spine of the World, the lands between, were named "the Cradle of the Two Lands"

Horrified, Isildur seized his own golden belt of determination "I will not permit the return of the Elden Ring!"

The lands between that had once been unknown, except for the name, were added to the Elden Ring

And the diamond sword of Isildur was sealed, beyond the endless void

It seems that the area between the World of the living and the World of the dead consists of an unknown land filled with dangers of different textures. I wonder how life is in such a world... Some people might have lost their way there, and no trace of them remains. But, normally, they would have been driven quickly out with cruel attacks, or fallen into the void, burned by the flames. Even if you have not lost your way, a vicious argument may occur. There will definitely be a battle in the Worlds beyond. ■Worlds Beyond-Abyss Name: Abyss Number of layers: Six Number of inhabitants: Exceeds No. 10,000 Things of the darkness that exist there: I think that there is a group of monsters with great hatred and animosity A long time ago On one day, as we were passing through the

The full funding has been approved for the development of a new 20-bed ICU tower for the San Francisco Department of Public Health. The application and its accompanying letters of support came from a team led by Infectious Disease Physician Walter K. Iseman, MD. A million-dollar non-profit, Angel Fund, has agreed to donate the money to build the new unit on behalf of the City of San Francisco. The ICU tower would be located at the Bayview Medical Center where there is a 17-bed ICU tower, which is to be closed. The University of California San Francisco and the San Francisco Department of Public Health would have control over the unit. The San Francisco Department of Public Health has only one of 16 ICUs available in the City for patients with severe sepsis and septic shock and none at all for patients with pneumonia. The limited availability of ICU beds in San Francisco has been a key concern for clinicians and public health officials in the city, which has a population of about 880,000. Deputy Health Director Dr. Oscar Reyes said the existing seven ICU towers in the City, including the one at San Francisco General Hospital, are already increasingly difficult to accommodate and the SFDPH wants to build a new unit in order to accommodate the "enormous influx of patients" into ICUs. "Our commissioners were really frustrated because of the lack of ICU space," said Reyes. "They understood how important this was. It's been a major issue and there was public pressure to do something." In an interview with Health Care Renewal, Dr. Iseman said that he wasn't surprised by the sudden and overwhelming approval of the new unit. "This was completely unforeseen, especially given the importance of this activity," said Iseman. "The commissioners were not aware of this project until it was submitted. It's an example of what really could make a difference in patient care. The idea of preventing people from dying in the ICU, that
