Unlock All Cars - NFS Carbon Unlock All Cars (GTA) - Full Trainer!.Q: In a sidemarked -m, how do I implement a macro that traverses an environment? I'm trying to create a macro, traversing a certain environment to find a particular symbol. However, the enumerate field

can be changed, so I need to make a more general macro. This seems to have the potential to be incredibly hard, so I'm turning to the experts. I have a list of texts that go like this (sample code, only one entry in the macro): ame{blah} \\ ame{whatever} \\ 6d1f23a050
