**Unidumptoreg.24**

---

Dec 30, 2019 - and conduct biweekly water quality monitoring in Lonnie Pond beginning April 24, 2019. So far, ten samples have been taken ..... this is not the end of the water quality monitoring work in Lonnie Pond. But we will definitely continue this monitoring. And from the end of April, we plan to start hydrobiological monitoring, a hydrologic buoy will be installed for this purpose. And, of course, we will conduct water analysis based on our samples, which will be provided to us by the organizations that take the samples. And depending on the results of the analysis we will make some decisions.
