Serious.Sam.3.BFE.Repack.Cracked Update

The Serious Sam: The Second Encounter update is only available to registered Serious Sam fans. Please don't give us your money. Thank you. This update includes:- New features - Full Steam Client v0.8.13011264 and Counter-Strike source v1.6.25 (Free Download for all customers of Humble Bundle and - DirectX 9.3: support D3D 9.3 - Updated Team Fortress 2 MOD's (Addon list attached) - Linux Steam client update from v0.7 to v0.8 (32/64 bits) - Fixed a bug where weapon barrel reload time was set to 0 when it shouldn't have been Understood that the Steam client update may have caused the serious sam 3 bfeextract file to not work without the original.exe files All fixes are included in the patch download NOTE: The BFE is installed next to the serious sam 3 exe files Last edited by Serious_Sam on Fri Apr 25, 2011 9:53 am, edited 2 times in total. We also have a scanned version of the.exe file with all the needed items for Serious Sam 3. The scan is done by Brad, with his Intel Core i5 2.8ghz, 4gb RAM, 320GB HDD, 15" screen. NOTE: Serious Sam 3 BFE will NOT work without the original.exe Serious Sam 3! files Comparing it, I found a very large number of updates to the binaries. Most of the files have only minor changes. I have also made an archive, called vsfe_BFE_v4.0.rar, which has a README with the details of what changes we did. To install the new version of the BFE, you should unpack it with winzip or 7zip, (however, any archive manager can do), extract Serious Sam 3 on your machine and rename Serious Sam.exe to Serious Sam.old.exe Then you should delete Serious Sam.exe (or serious sam.old.exe) In the folder with Serious Sam BFE files, there is a mod subfolder In that folder (not the BFE folder) there should be a folder called vsfe In there (in the vsfe folder) you should find a Serious Sam 3 folder (with no extension). c6a93da74d
